SCOPE OF SERVICES

STAPLES RODWAY OUTSOURCING

OUR PEOPLE

Our people are experienced at operating in the business environment and handling commercial tasks and transactions. We train and manage our people so that you don't have to.

They include book-keepers, management accountants, system accountants, payroll clerks and financial controllers. You don't need to pay for expensive staff in your business which are not fully utilised.

OUR TECHNOLOGY

SRO can assess and recommend the best accounting system for your business. We have experience in transitioning clients to cloud-based systems and have managed a number of CRM, Inventory, Payroll, Job Costing and Point of Sale system integrations.

OUR PROCESSES

SRO puts in place robust processes to ensure adequate controls are in place to protect your business whilst facilitating efficient and timely transactions and information flow.

OUR FEES

We enter into a fixed fee arrangement with you for a prescribed scope of outputs. This way you know exactly how much it is going to cost you.

You will be surprised at how reasonable our fees will be when compared to the status quo which may not be delivering the results or change which you desire.

For many of our clients the greater clarity we bring to the finance function as a driver of business change and growth more than outweighs the cost.

Contact Mark Kingsford, Head of Staples Rodway Outsourcing, for a no-obligation discussion as to how SRO could be right for you and your business.
